

December 3 2019

Hello Inspire,

First, a big thank you for taking the time to consider me for space camp!

I have huge dreams! One day I am going to be an aerospace engineer. I want to join the Air Force and then I want to work for NASA!

At space camp I will be challenge to grow and work with a team. I will gain valuable knowledge while there. I want to continue to learn and push myself in the area of space and technology. Space camp is an experience like no other that will help me get one step closer to my DREAM!

I push myself in school. I am currently taking two science classes. I love every minute of both classes. I also spent time outside of school creating and doing my own experiments. I am looking forward to hearing from you.

Thank you,

Ethan kauffman
